There are various options for getting to SOCC:

DRIVING

Westfield Shopping Centre Underground Car Park
Westfield Shopping Centre provides 2 hours free parking. You should try to park close to the Tower 2 Elevator. The best entrances to use are the preferred one on Grafton Street and the one on Hollywood Avenue.

Westfield Car park Tower 2 Elevator

Considering many clients may be suffering from mobility issues we recommend using the Tower 2 Elevator on the Green Level (P3) of the Westfield Shopping Centre Car park as the easiest option of getting here. It may take a little as 2 - 3 minutes to get to the clinic after parking your car. You will need to change lifts on the ground floor in order to get to level 18.

Please Note: The Tower 2 Elevator cannot be accessed from all levels of the car park. Try to use the Green Level (P3) if at all possible.

Grafton Street (preferred car park entrance)

This is a preferred car park entrance, as it provides easy access to the Tower 2 Elevator. When using this entrance stay in the left-hand lane.

Route to Elevator from Grafton Street Car park Entrance

When entering the car park stay in the left-hand lane, as this will take you directly to the Green Level.

Hollywood Avenue (preferred car park entrance)

This is also a preferred car park entrance, as it provides easy access to the Tower 2 Elevator. When using this entrance stay in the middle lane leading underground. The green dotted line, shows the best route to the Tower 2 Elevator.

Route to Elevator from Hollywood Avenue Car park Entrance

When entering the car park stay in the middle lane leading underground, as this will take you directly to the Green Level.
